PORTFOLIO

Astrocards: An Astronomy Augmented Reality for Junior High School Students

Astrocards is an Augmented Reality application that Polines developed. Teachers can use it to teach their students in a more immersive and interactive way, or they can use it for self-study.

Development Date:
2023 - 2024

Medscape Insights: Healthcare Management Information Systems (MIS)

As part of the Database-related subject for 3rd year IT students, we created a Management Information System and I decided to create an MIS for Medicine Inventory.

Development Date:
2023
